

Lab 2 - Paragraphs / Heading / Comments / Links

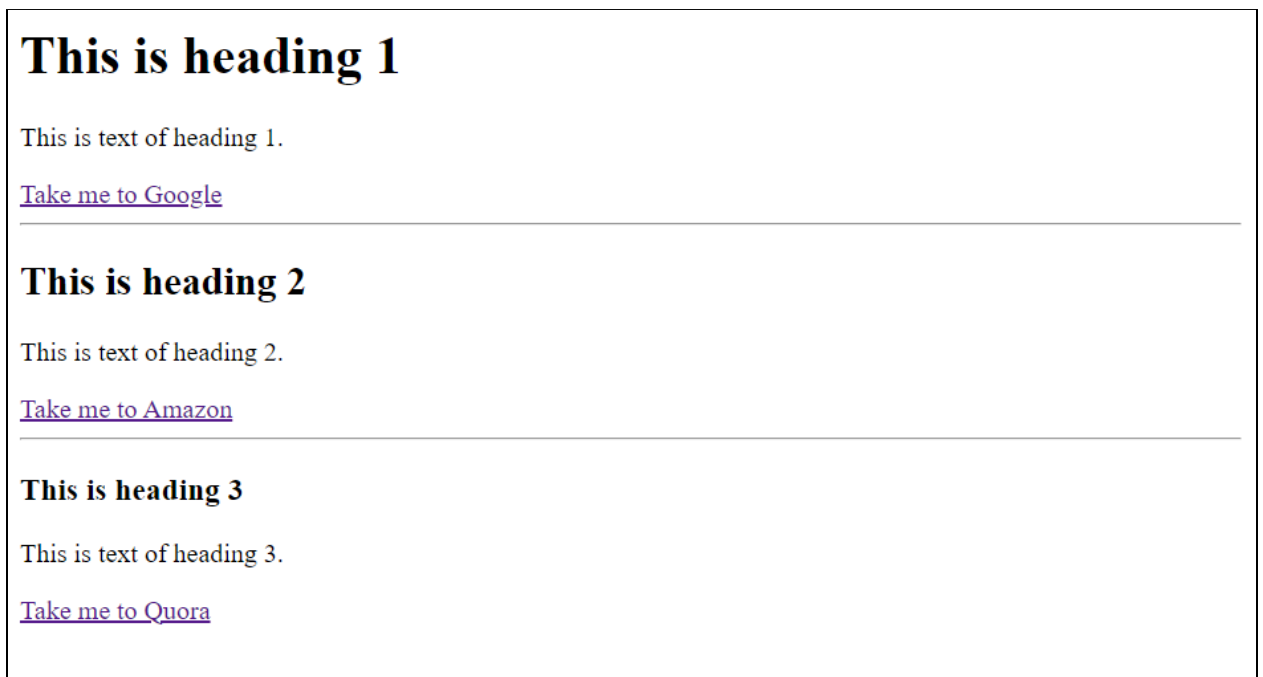

Instructions

1. Answer the below question in the boxes if needed.
2. For coding exercises, code on your computer and zip all your code before submission.
3. Please submit the assignment through TalentLabs Learning System.

Part 1: Headings, Paragraphs, and Links

Steps:

1. Go to VS Code and open the folder that we created in Lab 1
2. Open the HTML file (index.html) inside the folder.
3. Add HTML code inside the body tags and try to create a page that looks like the screenshot below. (Hint: You will need to use header tag, p tag, a tag and hr tag to complete this)

4. Make sure to ONLY use HTML.
5. The href for the 3 links in order are as follows:
 - a. <https://www.google.com/>
 - b. <https://www.amazon.com/>
 - c. <https://www.quora.com/>

Part 2: Add some comments about your code so we can understand it better

1. Comments are a great way for us to understand the code you have written.
2. Add some comments in the source code to explain your code or separate your code into different parts using comments.
3. Zip the file and upload to the Learning Management System
