Lab 9 - CSS Text

Instructions

1. Answer the below question in the boxes if needed.
2. For coding exercises, code on your computer and zip all your code before submission.
3. Please submit the assignment through TalentLabs Learning System.
4. **NO INLINE CSS CAN BE USED FOR THIS LAB**

Part 1: Alignment

Steps:

1. Go to VS Code and open the folder that we created in Lab 1
2. Create a new HTML file inside the folder name "text.html". You can use the HTML skeleton we included in Chapter 1.
3. Build HTML elements inside the body to replicate the screenshot below.

This is a Heading

This is a paragraph.

This is another paragraph.

4. Center align the Heading element

Part 2: Decoration

1. Add a link below the third line of text in Part 1. It is a link element that redirects to Google (`<a>` tag). It should look like the one below.

Google

2. Remove the underline from the hyperlink by using CSS.

</talentlabs>

Part 3: Text Fonts/Size/Weight

1. Set the font of heading to "Verdana", and font of other parts to "Courier New".
2. Set paragraph style to italics and increase their font size.
3. Set the header font to normal instead of bold.
4. Zip the HTML and CSS file and upload it to the Learning Management System
